

Please let wisconsins NO Call list stand as it is. It has been such an improvement to our lives. After working all day, I do not want to listen to an unwanted sales pitch and I especially do not want to jump up to answer the phone only to find a open line. My elderly mother-in-law was pestered and worried about these calls that she could not understand. The advent of the NO Call list was a positive step the state took that should not be undone. Thank you.
